

# SPECIFICATION

To the Commissioner of Patents and Trademarks:

Your petitioner, António Fernando Melo e Silva, a citizen of Portugal, and a resident of Lousado - V. N. Famalicão, prays that letters patent may be granted for the invention "COOL WAVE" as set forth in the following specification:

The name of this design "COOL WAVE" represents for me, the waves on the sea, which me the inspiration to create the design "COOL WAVE".

"COOL WAVE" is a geometric figure, with two lines sinusoidal; the lines intersect on the initial point and intersect also in the closure. The figure is billed on the two extremities.

"COOL WAVE", has many applications, when combination two or more "COOL WAVE" with the same size or different sizes, with the same harmony (proportion sizes), could be obtaining patterns, graphics symbols, logos and others things, which can be used in textiles, publicity and others industries. I have drawn seven figures to confirm the applications of my invention:

- Figure 1.1 is a "COOL WAVE" only, in two different sizes.
- Figure 1.2 is a pattern; employ "COOL WAVE" with the same size.
- Figure 1.3 is a pattern; employ "COOL WAVE" with the same size.
- Figure 1.4 is a graphic symbol, prints "A"; employ "COOL WAVE" with a different size.
- Figure 1.5 is a graphic symbol, prints "F"; employ "COOL WAVE" with a different size.
- Figure 1.6 is a graphic symbol, prints "M"; employ "COOL WAVE" with a different size.

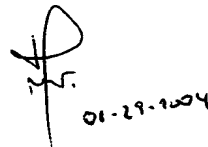

-Figure 1.7 is a graphic symbol, prints "S";  
employ "COOL WAVE" with the same size.

The invention "COOL WAVE" was emerged from 1997,  
with the program Paint Brush of Windows 3.11,  
later in 1998, I renewed the design in the  
programme Paint of Mac OS 8.6 and I have  
registered with S.P.A. (Society Portuguese  
Authors) with the reg. N° 08D/AR/DC in 04\14\1998  
with the name "OVO" (egg). "COOL WAVE" appears in  
the middle of the egg. I have made a petition to  
register the alphabet design with a "COOL WAVE" in  
Portugal by the (I.N.P.I.) and have made a  
petition to register the design "COOL WAVE" in  
C.E.E. to the (O.H.I.M.), but in these two cases,  
I asked to delay the publication. I wanted to  
public at first in E.U.A. after I will contact the  
(O.H.I.M.) to register "COOL WAVE" like a utility.

I claim: the invention for a Patent, which me  
protect all combinations and graphics  
manipulations in every sizes, with the same  
dimensions (proportion scale) of this geometric  
figure.

I'm sure, this is every thing I know, about "COOL  
WAVE".

Yours sincerely

A handwritten signature, possibly "J.S.", is written above the date "01-29-2004".
